

Quiz #10

A local restaurant has the following specials. Allow the user to select a day of the week from a pop-up menu. If the user selects Friday or Saturday, the user must also select lunch or dinner from a pop-up menu. Use switch-case to display the special for the selected day. An error message should be displayed if they do not select a day from the menu.

Day	Special
Sunday	Lasagna
Monday	Cheeseburger
Tuesday	Baked fish
Wednesday	Chili
Thursday	Chicken sandwich
Friday	Steak (lunch) Lobster (dinner)
Saturday	Shrimp pasta (lunch) Baked chicken (dinner)
